Risk Management Policy

LOA - Lotus Outreach Australia Incorporated

2025

1. Introduction

Lotus Outreach Australia (LOA) is a not-for-profit incorporated association. Its vision, mission and goals are based on ensuring the education, health, and safety of women and children in Cambodia. LOA funds programs to educate girls as a proven method of lifting them and their community out of poverty and to protect them from trafficking and child labour.

In pursuit of this mission, LOA recognizes the importance of identifying and managing potential risks that could impede its objectives. This Risk Management Policy provides a structured framework for the identification, assessment, and mitigation of risks, including financial abuse, to uphold the integrity and effectiveness of our operations.

LOA is governed by a voluntary board of professional people who have no financial interest in nor receive any financial benefits from LOA. LOA itself does not carry out operations in Cambodia but provides funding to its implementing partners to carry out its charitable work on the ground. The LOA Board does not work directly within the programs it funds and recognizes that a primary risk is in partnering and providing financial support with 3rd parties overseas
